

Erick Caballero

Atlanta, GA 30312 • ecaballero30@gatech.edu •

Education

Georgia Institute of Technology

Bachelor of Science, Computer Science, Machine Learning. GPA: 3.8

Atlanta, GA

Dec 2026

Relevant Coursework: Advanced Algorithms, Database Systems, Machine Learning, Human-Computer Interaction

Ritsumeikan University

Study abroad coursework in English and Japanese.

Kyoto, Japan

January 2023 – April 2023

Experience

Team Fray

Software Engineer Intern

Atlanta, GA

June 2024 – August 2024

- Engineered a web-based dashboard using C# and ASP.NET to facilitate real-time player data analytics, enhancing data accessibility for team members.
- Collaborated with multidisciplinary teams to incorporate machine learning functionalities, improving predictive analytics capabilities.
- Developed interactive visualizations with Plotly.NET, enabling more effective data-driven decision-making.

Kirby's Ride Registry

Full Stack Developer

Atlanta, GA

December 2025 – Present

- Developed and deployed a full-stack web application serving **3000+ daily active users** using **Node.js** and **Supabase**.
- Engineered a searchable asset registry to resolve the lack of native search functionality in the original game, reducing user discovery time.
- Built a persistent "Garage" and inventory system allowing users to manage account listings, track restocks, and sync state in real-time.
- Integrated **Cloudinary** for automated image optimization and delivery, handling high-volume media uploads with minimal latency.

College of Coastal Georgia, Department of Computer Science

Teaching Assistant

Atlanta, GA

August 2023 – December 2023

- Assisted in instructing Introduction to Programming (C#), supporting over 50 students through labs and assignments.
- Created additional learning materials to aid student comprehension and engagement.

Projects

Erick Caballero, LLC.

Volunteer Web Developer

Brunswick, GA

June 2021 – Present

- Designed and maintained websites for local nonprofits using HTML, CSS, JavaScript, and Python.
- Delivered technical training to nonprofit staff, enhancing their digital capabilities and outreach efforts.
