Education

Georgia Institute of Technology

Bachelor of Science, Computer Science, Machine Learning. GPA: 3.8

Relevant Coursework: Advanced Algorithms, Database Systems, Machine Learning, Human-Computer Interaction

Atlanta, GA

July 2026

Ritsumeikan University

Study abroad coursework in English and Japanese.

Kyoto, Japan

January 2023 – April 2023

Experience

Team Fray

Atlanta, GA

Software Engineer Intern

June 2024 – August 2024

- Engineered a web-based dashboard using C# and ASP.NET to facilitate real-time player data analytics, enhancing data accessibility for team members.
- Collaborated with multidisciplinary teams to incorporate machine learning functionalities, improving predictive analytics capabilities.
- Developed interactive visualizations with Plotly.NET, enabling more effective data-driven decision-making.

College of Coastal Georgia, Statistical Machine Learning Lab

Atlanta, GA

Research Assistant

February 2024 – 2025

- Contributed to the development of algorithms focused on sentiment analysis, aiding in the interpretation of user feedback.
- Built data preprocessing workflows in Python, increasing data processing efficiency and accuracy.
- Presented research outcomes at the Georgia Tech Undergraduate Research Conference, showcasing key insights and methodologies.

College of Coastal Georgia, Department of Computer Science

Atlanta, GA

Teaching Assistant

August 2023 – December 2023

- Assisted in instructing Introduction to Programming (C#), supporting over 50 students through labs and assignments.
- Created additional learning materials to aid student comprehension and engagement.

Leadership & Activities

Erick Caballero, LLC.

Brunswick, GA

Volunteer Web Developer

June 2021 – Present

- Designed and maintained websites for local nonprofits using HTML, CSS, JavaScript, and Python.
- Delivered technical training to nonprofit staff, enhancing their digital capabilities and outreach efforts.
